NOMA \ **WOOD**

CUSTOMMADE

Tread new paths with NOMAWOOD ...

Whether for those who like to enjoy life to the full in their own quiet way or for the vivacious host, NOMAWOOD creates the necessary space and brings a slick and stylish finishing touch. Its unusual look is down to its natural shading and matt effect. Unostentatious design, **understated style features and clean lines** – NOMAWOOD is inspirational from the outset and keeps its wow factor for ever. Made for creative people with vision and a penchant for practicality and ecological sustainability.

HOME COMFORT

NOMAWOOD brings a touch of comfort ...

Take a look and feel the rush of love at first sight. Not that NOMAWOOD is just astonishingly good-looking, but it also has the groove. Its pleasant natural warmth and smooth skid-free surface convey a sense of exclusivity. Not to mention its unique material benefits in contrast to wood and its guarantee of absolute hygiene **with no risk of splinters and no unsightly screws**. Just sit or lie down on the patio and bask in the feel-good factor. This is what the modern-day lifestyle oasis looks like.

LOW MAINTENANCE

NOMAWOOD for more free time in the great outdoors ...

Once installed, NOMAWOOD is **extremely resistant to weathering and waterrepellent**. No more maintenance work with chemicals designed to prevent the growth of algae and moss, and no more scrubbing to remove oil, red wine or other liquids which cause staining. After a heavy shower simply dry the surfaces with the squeegee (rubber wiper) – it's almost more fun than relaxing back in the sun. Very clever, these people who rely (and lie) on NOMAWOOD.
