

# NOMAPACK® Pallet Divider

NOMAPACK® Pallet Divider is a well established product, used in the automotive industry, for safe and protective transporting of components throughout the whole manufacturing and distribution chain.

## Product features

- Core of corrugated cardboard (made of natural and non-toxic components)
- Laminated with NOMAPACK® Sheet PE foam (on one or both sides)
- Density PE foil: 20 kg/m<sup>3</sup>
- Available with foam borders or cut clear along the cardboard edges
- Antistatic PE surface layers available on demand
- Effective fixation and protection
- Stiff and easy to handle
- Liquid resistant, thanks to the protective PE foam
- Available in various thicknesses and strengths of the corrugated cardboard
- Easy to recycle

# NOMAPACK® Pallet Divider

## Core material:

Stiffness: depends on the quality of the corrugated cardboard and the type of fluting

Compressive strength: depends on the wave-length (distance between the "waves")

Other sizes, foam versions and corrugated cardboard qualities on request (E.g. for half pallets)

## Surface material:

By its tightness and softness, the PE foam protects the product to be packed

Type	Width mm	Thickness mm	Length mm
1140x740x6	740	6	1140

## Complementary Products

### NOMAPACK® C

The NOMAPACK® C range has been specially designed to protect bath ceramics and offers customized solutions for many different applications.

### NOMAPACK® Pad
