

NOMAPACK® Plank

NOMAPACK® Planks are NMC's laminated and flexible PE foam sheets for special requirements.

The extremely shock absorbing properties of the material provide an effective protection against impact, which makes NOMAPACK® Plank an easy choice to protect efficiently your product.

Product features

- Non cross-linked extruded PE-LD foam
- Closed cell structure with skin
- Low water absorption and water-vapour transmission rate
- Very good resistance to solvents, fuel oil and other chemicals
- High resiliency and flexibility
- Excellent cushioning behaviour
- Temperature stability from -40°C to +90°C
- Good thermal insulation properties
- Antistatic version available
- 100% recyclable
- Odour and dust free

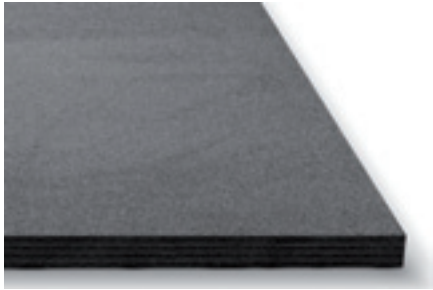

NMC reserves the right to update the product line or its technical features to the state-of-the-art technology anytime and without previous announcement. NOMAPACK® Plank

- Available in different lengths and thicknesses from 20 to 100 mm
- Standard width of 1210 mm
- Standard density: from 22 kg/m³ to 200 kg/m³
- Possibility to combine different densities within the same plank
- Standard colours: white, grey and black
- Antistatic version available
- Other sizes, densities or colours on demand

Type	A mm	B mm	Length
2400x1210 x 20-100	1210	20-100	2400-3000 mm

Complementary Products

NOMAPACK® C

The NOMAPACK® C range has been specially designed to protect bath ceramics and offers customized solutions for many different applications.

NOMAPACK® Pad

NOMAPACK® Pad, the little spacer with big effect. Available in different dimensions with permanent or residue-free removable adhesive. This is the ideal packaging spacer to separate or fix sensitive goods. The Pads are packed in preslit units, to allow you to separate the required lengths simply and cleanly.

NOMAPACK® System

NOMAPACK® System, the efficient transport protection for sensitive goods. NOMAPACK® System provides an ideal protection against shocks and vibrations thanks to its directly extruded, specially designed L-shape with integrated holes. It can be easily transformed to obtain a packaging frame.
